Abstract

The abstract for this paper is not required for this assignment.

Keywords: microplastics, immunity, neuroinflammation

Placeholder 'cause old one was too cringey

Introduction

This is the start of the document content...

MP Transport and Crossing the Blood-Brain Barrier (BBB)

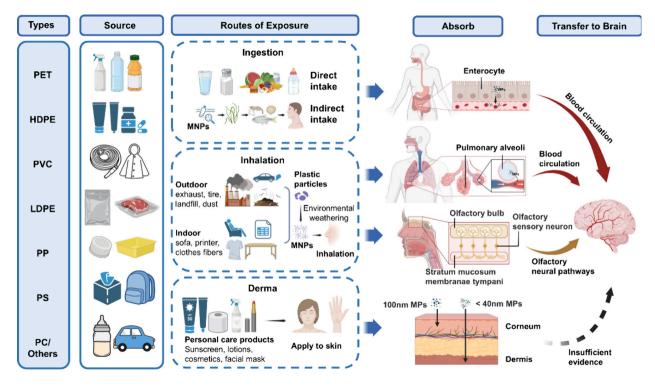

This is illustrated well by Figure Figure 1

Routes of Entry

Microglial Activation and Neuroinflammation

Consequences and Future Directions

Figure 1 *Environmental sources and human exposure of MNPs.*
